

Eliminizer

Filter Dryer

Contaminants Removed:
Water & Dirt

- Remove water & dirt in a gas system
- Removes water & dirt to 1 micron
- Utilizes stainless steel fiber elements & cotton final filters
- May be installed in most washdown applications
- Plastic automatic drain or nickel-plated brass manual drain
- Differential Pressure Indicator

Eliminizer Combo

Filter Dryer/Oil Extractor

Contaminants Removed:
Water, Dirt & Oil

- Remove water & dirt in a gas system
- Removes water, dirt & oil to 0.01 micron
- Stage 1 utilizes stainless steel fiber elements & cotton final filters
- Stage 2 utilizes borosilicate fiber elements & polyurethane drain layers
- May be installed in most washdown applications
- Plastic automatic drain or nickel-plated brass manual drain
- Differential Pressure Indicator

Eliminex

Separator/Filter

Contaminants Removed:
Water & Dirt

1P-150-F08-Fi →

- Remove water & dirt in a gas system
- Removes water & dirt to 3 microns
- Utilizes stainless steel fiber elements
- May be installed in washdown applications
- Plastic automatic drain or nickel-plated brass manual drain
- Differential Pressure Indicator

Eliminex Combo

Separator/Oil Extractor

Contaminants Removed:
Water, Dirt & Oil

- Remove water & dirt in a gas system
- Removes water, dirt & oil to 0.01 micron
- Stage 1 utilizes stainless steel fiber elements
- Stage 2 utilizes borosilicate fiber elements & polyurethane drain layers
- May be installed in washdown applications
- Plastic automatic drain or nickel-plated brass manual drain
- Differential Pressure Indicator

Application:

Easily remove water, dirt and oil contamination from applications requiring food grade filters
